

the **EVASONS**

TECHNICAL RIDER

SPONSOR PLEASE PROVIDE THE FOLLOWING:

1. **PA SOUND SYSTEM:** Suitable for speaking and music, including the following:
 - A) Mixer with accessible audio controls.
 - B) Two main speakers on stands, placed on floor at each side of stage.
 - D) One hand-held wireless microphone with new batteries.
 - E) One microphone stand for hand-held wireless microphone.
 - F) Two electrical outlets located near the mixer (110 volts).
 - G) Two available channels in the mixer for two devices that The Evasons will provide: 1) music player for show music, controlled by wireless remote, that plugs into the mixer with a 1/4 inch connector. 2) one additional wireless microphone that plugs into the mixer with an XLR connector.
2. **LIGHTING:** The show takes place both on stage and in the audience. Both areas should be lit. The existing room lighting is usually sufficient.
3. **STAGE:** The Evasons require a minimum area 12 feet wide by 8 feet deep, clear of obstructions (podium, furniture, etc.). If the stage is over 12 inches high, please provide stairs that lead directly into the audience from the FRONT of the stage.
4. **SEATING:** A clear path from stage throughout the audience seating area.
5. **ACCESS:** A minimum of 60 minutes for setup and sound checks prior to guests arriving in the room.
